

C5v

Mobile Clinical Assistant

THE CURE FOR THE COMMON WORKFLOW

Compact. Lightweight. Easy to disinfect. The Motion Computing® C5v enables true mobile point-of-care. Get the exceptional performance of the Intel® Core™ i7 vPro™ Processor and the convenience of accessing patient data at the bedside.

Imagine every bit of patient information that must be referenced on a given day. Now imagine that it's accessible on-demand in a portable, lightweight device that weighs only **1.5kg¹**. With a highly ergonomic design, the Motion C5v keeps the most up-to-date patient information at your fingertips. Increase productivity, save time, improve documentation and reduce errors by accessing patient data at the bedside. Use the optional **barcode scanner** and **RFID reader** for medication administration and patient identification. Take a photo with the **integrated digital camera** and quickly add it into the Electronic Medical Record (EMR) or collaborate with a variety of caregivers using the **web camera**.

DESIGNED WITH CLINICIANS IN MIND

Deliver mobility and reliability at the point-of-care with the Motion® C5v. The industry's first Mobile Clinical Assistant (MCA), the C5v was designed specifically for healthcare environments in partnership with Intel® Health and based on input from thousands of clinicians worldwide. Lightweight, rugged and fully-sealed to ensure compliance with infection control protocols, the C5v is built for demanding healthcare environments.

The integrated camera allows you to easily take pictures and video.

Sealed design is wipeable for quick cleaning and disinfecting.

The easy-to-use barcode reader allows you to manage medicines or costly supplies.

SAFE AND SECURE SHARING

Send your entire team secure, up-to-the-minute patient information without ever leaving your patient's side. The Motion C5v seamlessly runs EMR applications and it's equipped with built-in **Wi-Fi®**, **Bluetooth®** and optional **Gobi™ 2000** to keep you connected to the information you need and to help you easily share it with other caregivers. Plus, it keeps sensitive information secure with the biometric fingerprint reader and optional **smart card**. Make more informed decisions. Eliminate double documentation. Let the Motion C5v help you streamline your work environment and enhance patient care.

Work seamlessly. Improve productivity. Enhance patient care.

RUGGED, POWERFUL AND HIGHLY MOBILE

From the hospital to home care, the rugged design can handle even the toughest conditions. The C5v now comes standard with **Gorilla™ glass** for up to **four times the strength in breakage resistance²** over standard displays. Add in **View Anywhere®** technology and users get the best tablet PC viewing experience available. And now with Intel® Core™ vPro™ technology, the C5v offers new levels of power, security and manageability. With a **50% improvement in performance³**, a nearly **30% increase in battery life³**, **hot-swap battery feature** and enhanced remote management capabilities, both clinicians and IT personnel can feel confident that the C5v is available and patient data secure – freeing up valuable time and resources to focus on patient care.

ACCESSORIES TO MEET EVERY NEED

Docking Station

The full-featured, mountable, desktop docking station, includes a battery charging bay for keeping multiple batteries charged and ready.

ReadyDock™ C5M

Convenient charging and storage dock made specifically to house, charge and secure your Motion C5-Series Tablet PCs.

Battery Charger

The battery charger for Motion C5-Series Tablet PCs is an external bay to charge additional batteries, giving the capability of a full day of performance. The charger's LED indicates battery charge status.

*Additional batteries sold separately

FlexCarry

This ergonomic carrying solution clasps securely onto the back of the tablet to provide alternate methods for carrying and holding the device when in use.

EasyConnect

This lightweight add-on provides one USB 2.0 port and one Ethernet 10/100 port allowing for easy connectivity.

Mobile Dock

With the Mobile Dock mounting/docking solution, any Motion C5-Series Tablet PC can be mounted in almost any location. Offering full port replication and charging capability, the powered dock is perfect for patient visits.

KEY BENEFITS AND FEATURES

LIGHTWEIGHT AND HIGHLY MOBILE

- Only 1.5kg¹ (3.3lbs)
- Built-in handle
- Hot-swap battery feature
- Built-in wireless connectivity

OPTIONAL INTEGRATED FEATURES

- 3.0-Megapixel camera
- Front-facing web camera
- Barcode scanner
- RFID reader

POWERFUL YET EFFICIENT

- Intel® Core™ i7 vPro™ Processor (1.2 GHz) or Intel® Core™ i5 vPro™ Processor (1.06 GHz)
- Supports Windows® 7 and Windows® XP
- 1.8" HDD with 160 GB capacity and up to 4GB of RAM

INDUSTRY-LEADING DISPLAY

- Hydis AFFS+ LED backlit display
- View Anywhere® technology
- Gorilla™ glass durable display

RUGGED FROM THE INSIDE OUT

- Internal magnesium frame
- Fully sealed and IP54-rated
- Meets MIL-STD-810G
- 64GB or 128GB SSD (optional)

Easily disinfected, lightweight and rugged, the C5v was designed for healthcare environments.

¹Weight represents approximate system weight measured with one 40Whr battery. Actual system weight may vary.

²Based on internal Motion strength tests versus standard display.

³Based on MobileMark® 2007 performance testing.
